[redacted] Staff Review on 15 Sept raised following questions:

1. Chips - Commercial packing or special - paper inserts
2. Standard cut film is notched. Need full cut if possible.
3. No material [redacted]
4. Square or round viewing area
5. Logical Gate Info
6. Input of 800 l/mm output 400 l/mm - Have we tgt material?
7. X-Y offset accuracy - Specs read [redacted] - Correct??
8. Requirement for dual spool system.

Information Given or Action Taken

1. [redacted] investigate & recommend type of packaging.
2. Full cut can be obtained.
3. [redacted] material [redacted] last week - incomplete, due in in 2 weeks.
4. Either
5. No mfr until [redacted] reader) is delivered.
6. Tgt material - they supply. Recommended [redacted]
7. Specs read [redacted] Should be [redacted]
8. Two spool transport needed.

Reference [redacted] - be needs high resolution unclassified film. Mentioned [redacted] Camera [redacted] (built for Ft Monmouth. [redacted] will get some - 60 frames - material has scratches as original design had defects. This has been corrected but they have no recent film. Two sets of lenses design - [redacted] better flatter field [redacted] F2.8 - 3" - 50% field of view. Better resolution to 40' [redacted] Recv phone [redacted]
